Our day labor program is ethical—we're more than just a job

We are a nonprofit staffing agency that provides pathways out of poverty for men and women who are homeless or underemployed. Our workers are paid above minimum wage; we provide food, transportation, training and supervision. By employing people through Primavera Works you are giving them an opportunity to find permanent work and shelter.

"I use Primavera Works because of the convenience. I can call last minute and get the workers when I need them. I also know that I am doing my part in helping someone get back on their feet. I also like the no placement fee to hire a worker full-time."
